Question	Answer	Marks	Partial Marks	Guidance
5(a)(i)	True **and** correct description of correlation eg as the distance increases the cost increases	**1**		See additional guiddance for further examples Accept Yes for True
5(a)(ii)	(1, 15) circled	**1**		Accept clear indication
5(a)(iii)	Acceptable ruled line of best fit drawn	**1**		See overlay – their line of best fit must be on or within the red lines and must at least reach the two vertical lines
5(a)(iv)	16 to 19	**1**	If 0 scored, **FT** *their* straight line of best fit with positive gradient	Tolerance ± ½ small square

Question	Answer	Marks	Partial Marks	Guidance
5(b)(i)	8.8[0]	**1**		
5(b)(ii)(a)	8 : 2 : 5	**2**	**M1** for any correct equivalent ratio	If inexact decimals used then must be correct to at least 3 sf M1 for eg 120 : 30 : 75 or 24 : 6 : 15 or 8/15 :2/15 : 1/3 or 0.533… : 0.133… :0.333… or 4 : 1 : 2.5 , 1 : 0.25 : 0.625 , 1.6 :0.4 :1 or 14.08 : 3.52 : 8.8(0)
5(b)(ii)(b)	5.28	**3**	**B2** for 14.08 or **M1** for $\frac{26.40}{12+3+7.5}\times m$ where m = 1, 3 ,7.5 or 12 or **M1FT** for $\frac{26.40}{(their8+their2+their5)}\times k$ where k = 1 or *their* 8 or *their* 2 or *their* 5 oe	M1 can be awarded for working seen in part (b)(ii)(a) if then carried on into part (b)(ii)(b) implied by 1.17…, 3.52 or 8.8 implied by 1.76, 3.52 or 8.8
5(c)	20 580 cao	**3**	**B2** for answer 20 579.68[…] or 20 579.7[0] or 20 600[.00] or **M1** for $18\,600\left(1+\frac{1.7}{100}\right)^6$ oe **B1** for their answer correctly rounded	B2 for 20579 or 20570 or 20579.6 or 20580.00 Do not accept 1.7% in any form unless recovered if principal subtracted M1 can be scored 20 579.68[…] – 18600 = 1979.68 [..] 20580 – 18600 = 1980 Must be from a decimal answer seen and correctly rounded to nearest dollar Do not accept .00 as nearest dollar
