Question	Answer	Marks	Partial Marks	Guidance
7	32	**2**	**B1** for 18 or 14	
8	$\frac{3}{10}$ $\frac{1}{3}$ 34% 3 π	**2**	**B1** for 4 in the correct order or **M1** for decimal equivalents to compare numbers 0.34, 3.1..,0.33, [3], 0.3	Accept decimal equivalents all in the correct order for 2 marks
9	2045	**1**		accept 8.45pm or, for example, 20:45 do not accept 20h45, 2045pm, 20˚45˚
10(a)	20	**1**		
10(b)	10 squares shaded	**1**		may include fractions of squares but total is 10
11(a)	3.978	**1**		Condone extra 0's in both parts Ignore calculated attempts in both parts
11(b)	19.5	**1**		Allow $19\frac{1}{2}$ but not $\frac{39}{2}$
12(a)	$(29+21)\times(29-21)$ $=50\times 8$	**M1**		condone the first line missing for M1 accept $(29+21)(29-21)$ Condone missing final bracket
	400	**A1**		Must be done by Kat's method. Not a misread.
12(b)	12000	**2**	**M1** for (17^2-13^2)[×100] oe	oe eg $13\times 4+13\times 4+4\times 4$ or 120
13	8000	**1**		
14(a)	5 9	**2**	**B1** for each	
14(b)	$\sqrt{3^2+4^2}$ [=5]	**M2**	**M1** for 3^2+4^2	

Question	Answer	Marks	Partial Marks	Guidance
14(c)	correct net drawn	**3**	**B2** for 3 correct extra faces drawn in correct places or **B1** for 1 correct extra face drawn in correct place	Maximum of 4 extra faces drawn for B2 or B1
15(a)	equilateral	**1**		accept unambiguous spellings
15(b)	120	**2**	**B1** for *DBC*=60	60 could be on a diagram
	Angles in an equilateral triangle are equal Angles on a straight line add to 180	**1** **1**		angles [in an equilateral] triangle [are] equal (accept 60 for equal) angles [on a straight] line [add to] 180 Reasons still apply even if angles are incorrect.
16(a)	positive	**1**		ignore embellishments
16(b)	the higher the temperature the higher the number of people oe	**1**		Condone 'The higher the number of people the higher the temperature'. oe
17(a)	$[y =]\frac{1}{2}x + 3$ final answer	**2**	**B1** for $\frac{1}{2}x + c$ or **B1** for $mx + 3$ where $m \neq 0$	Equivalent fractions for gradient. Eg y = 4/8 x + 3 gets B1 only
17(b)	$(-6,0)$	**2**	**B1** for $(-6,\ j)$ or $(k, 0)$ or **M1** for $0 = their\ \frac{1}{2}x + 3$ or better	
18(a)	$-2\quad -4\quad -12\qquad 12\qquad 4\qquad 2$	**3**	**B2** for 4 correct or **B1** for 1 correct	
18(b)	Correct curve	**4**	**B3FT** for 9 points correctly plotted or **B2FT** for 7 points correctly plotted or **B1FT** for 5 points correctly plotted	No ruled lines – if in doubt, BOD For 4 marks must not cross or touch either axis No part of the curve between $x = -1$ and $x = 1$
