Question	Answer	Marks	Partial Marks	Guidance
14(c)	correct net drawn	**3**	**B2** for 3 correct extra faces drawn in correct places or **B1** for 1 correct extra face drawn in correct place	Maximum of 4 extra faces drawn for B2 or B1
15(a)	equilateral	**1**		accept unambiguous spellings
15(b)	120	**2**	**B1** for *DBC*=60	60 could be on a diagram
	Angles in an equilateral triangle are equal Angles on a straight line add to 180	**1** **1**		angles [in an equilateral] triangle [are] equal (accept 60 for equal) angles [on a straight] line [add to] 180 Reasons still apply even if angles are incorrect.
16(a)	positive	**1**		ignore embellishments
16(b)	the higher the temperature the higher the number of people oe	**1**		Condone 'The higher the number of people the higher the temperature'. oe
17(a)	$[y =]\frac{1}{2}x + 3$ final answer	**2**	**B1** for $\frac{1}{2}x + c$ or **B1** for $mx + 3$ where $m \neq 0$	Equivalent fractions for gradient. Eg y = 4/8 x + 3 gets B1 only
17(b)	$(-6,0)$	**2**	**B1** for $(-6,\ j)$ or $(k, 0)$ or **M1** for $0 = their\ \frac{1}{2}x + 3$ or better	
18(a)	$-2\quad -4\quad -12\qquad 12\qquad 4\qquad 2$	**3**	**B2** for 4 correct or **B1** for 1 correct	
18(b)	Correct curve	**4**	**B3FT** for 9 points correctly plotted or **B2FT** for 7 points correctly plotted or **B1FT** for 5 points correctly plotted	No ruled lines – if in doubt, BOD For 4 marks must not cross or touch either axis No part of the curve between $x = -1$ and $x = 1$

Question	Answer	Marks	Partial Marks	Guidance
18(c)	$y = -9$ correctly drawn, ruled	**1**		Tolerance within 1mm vertically of $y = -9$ but condone touching grid lines at extremities. Horizontally must cover $x = -5.8$ to $x = +5.8$
18(d)	-1.4 to -1.2	**1**	FT *their* curve and $y = -9$	
19(a)	9 11 13 15 final answer	**2**	**B1** for 3 correct and no errors or for 4 correct and one extra	
19(b)	Pip needed to use two $\leq$ signs oe	**1**		Accept 'it is $-1 \leq x \leq 8$' do not accept eg the circles should not have been coloured in.
20	634.5 635.5	**2**	**B1** for each If 0 scored **SC1** for both correct but answers reversed	
21(a)	50	**2**	**M1** for $\frac{1}{3} \times 5^2 \times 6$ or better	Do not allow $\frac{1}{3}5^2 6$ unless evaluation evidences multiplication
21(b)	$p = \frac{3X}{w^2}$ or $p = 3Xw^{-2}$ final answer	**2**	**M1** for $3X = w^2 p$ or $\frac{X}{w^2} = \frac{1}{3}p$ or $Xw^{-2} = \frac{1}{3}p$	Answers with double decker fractions score max 1 mark. Condone $3 \times X$ for $3X$ M1 also for $\frac{X}{\frac{1}{3}w^2}$ or $\frac{\frac{1}{3}X}{w^2}$ or $\frac{X}{3w^2}$ or $3w^2X$
22	$\frac{2}{3}$ cao	**3**	**B2** for final answer $\frac{10}{15}$ or equivalent fraction OR **B1** for $\frac{22}{15}$ or $\frac{7}{15} + \frac{1}{5}$ **M1** for $\frac{3\times4}{3\times5}$ oe or $\frac{3\times1}{3\times5}$ oe	work in decimals scores B0, M0 but the correct answer (mama) could score 3 correct method to find common denominator
