Question	Answer	Marks	Partial Marks	Guidance
6	565.8[0]	**3**	**M2** for 12 × 40 + 5.5 × 12 × $\left(1+\frac{30}{100}\right)$oe or **M1** for 12 × 40 oe or 12 × 45.5 or [5.5 ×] 12 × $\left(1+\frac{30}{100}\right)$oe or [12 ×] 5.5 × $\left(1+\frac{30}{100}\right)$oe or 12 × 0.3 × 5.5	Accept answer 566 if more accurate value seen M2 for e.g. 12 × 45.5 + 0.3×12 ×5.5 Allow M1 for method seen even if not used or spoilt implied by 480 or 546 implied by 15.6[0] or 85.8 implied by 7.15 oe implied by 19.8 oe
7(a)	4 points correctly plotted	**2**	**B1** for 2 points correctly placed	Accuracy ± ½ small square radially Use overlay as a guide
7(b)	Positive	**1**		Ignore embellishments e.g. strong
7(c)	Ruled line of best fit	**1**		Use overlay for tolerance. Line must be ruled and solid and pass through gate at (8, 4.3) to (8, 4.7) and touch or pass through gates at (2, 2.6) to (2, 3.3) and (15, 5.9) to (15, 6.6) Circles on overlay are not included in gates – if in doubt check without overlay Condone if 2 mm short horizontally of reaching both outer gates provided it is correct when extended or allow slight slip at 2 mm from end[s] of ruled lines if still in tolerance

Question	Answer	Marks	Partial Marks	Guidance
7(d)	FT reading at 14 weeks from *their* straight line of best fit with positive gradient	**1**		Allow for intention of a straight line/ dashed line Tolerance ± 0.05 of *their* reading at 14
8(a)	2.1	**2**	**B1** for 4.2 [cm] or **M1** for answer *their* written measurement × 0.5 correctly evaluated	Accept answers 2 to 2.2 [km] For B1 accept 4 to 4.4 [cm] For M1 *their* measurement must lie between 4 cm and 5 cm
8(b)	Correct construction for position of *L* with intersecting arcs 8.8 cm from *A* and 6.6 cm from *B*	**3**	**B2** for correct position of *L* indicated with no/incorrect arcs or for completely correct with intersecting arcs but *L* to the west of *A* and *B* or **B1** for 8.8 cm from *A* or 6.6 cm from *B* soi If 0 scored, **SC1** for fully correct with arcs but distances reversed 6.6 cm from *A* and 8.8 cm from *B* or for position of *L* to the east with intersecting arcs 4.4 cm from *A* and 3.3 cm from *B*	Tolerance ± 2 mm for all marks – use ruler tools to measure Accept any clear unambiguous indication of *L*, e.g. a dot, the intersection of arcs Accept e.g. an arc 8.8 cm from *A*
9(a)	7.09×10^{-3}	**1**		Condone trailing zeros in (a) and (b)
9(b)	1.6×10^{9}	**2**	**B1** for 16×10^{8} oe	
10(a)(i)	Triangle drawn at (2, 0), (1, –1) and (3, –3)	**2**	**B1** for reflection in $y = k$ or for reflection in $x = 1$	Mark intention, accept freehand, use overlay as a guide in part (a)(i) and (ii)
10(a)(ii)	Triangle drawn at (–4, 3), (–5, 4) and (–3, 6)	**2**	**B1** for translation by $\begin{pmatrix} -6 \\ k \end{pmatrix}$ or by $\begin{pmatrix} k \\ 1 \end{pmatrix}$
