Question	Answer	Marks	Partial Marks	Guidance
20	6.2 nfww	**3**	**M2** for $\frac{7800-50}{1240 \text{ to } 1260}$ or $\frac{7700 \text{ to } 7800}{1240+10}$ or **M1** for 7850 or 7750 or 1250 or 1230 seen	Accept 6.20, $6\frac{2}{10}$, $6\frac{1}{5}$ but not $\frac{31}{5}$ Accept 7800 + 50 or 7800 – 50 or 1240 + 10 or 1240 – 10
21	$\frac{14}{9}\mathbf{m}+\frac{4}{9}\mathbf{n}$ oe simplified final answer	**4**	**B3** for $2\mathbf{m} + \frac{4}{9}(-\mathbf{m}+\mathbf{n})$ oe or **M2** for $\overrightarrow{AE} = \frac{4}{9}(-\mathbf{m}+\mathbf{n})$ or $\overrightarrow{EA} = \frac{4}{9}(\mathbf{m}-\mathbf{n})$ or $\overrightarrow{BE} = \frac{5}{9}(\mathbf{m}-\mathbf{n})$ or $\overrightarrow{EB} = \frac{5}{9}(\mathbf{n}-\mathbf{m})$ **M1** for $\overrightarrow{OB} = \mathbf{m}+\mathbf{n}$ or $\overrightarrow{BO} = -\mathbf{m}-\mathbf{n}$ or $\overrightarrow{AB} = \mathbf{n}-\mathbf{m}$ or $\overrightarrow{BA} = \mathbf{m}-\mathbf{n}$ or for a correct vector route along the lines on the diagram	For 4 marks accept e.g. $\frac{2}{9}(7\mathbf{m}+2\mathbf{n})$ e.g. B3 for $\mathbf{m} + \mathbf{n} + \frac{5}{9}(\mathbf{m}-\mathbf{n})$ For M2 or M1, if marked on diagram, direction arrows must be present and correct Not just for $\overrightarrow{OE}$ Accept mixed notation e.g. $2\mathbf{m} + \frac{4}{9}AB$
